SUMMARY

Software Engineer with a deep focus on backend development and cloud infrastructure. Experienced in designing and deploying scalable microservices architectures and REST APIs, with a strong focus on security and cloud-native integration using AWS. Passionate about building high-performance projects by integrating AI-driven features.

SKILLS

Core Tech : Java, Spring Boot, Microservices, Python
Cloud/DevOps : AWS (EC2, RDS, VPC, S3, IAM), Docker, Git
APIs & Security : RESTful APIs, OAuth2, JWT, API Gateway
Databases : MySQL, PostgreSQL, MongoDB
Frontend : React

TECHNICAL PROJECTS

SkyFind | [Live](#) · [GitHub](#)

- Developed an aviation tracking platform featuring 3D WebGL globe visualizations for real-time aircraft monitoring.
- Engineered a Spring Boot backend (Render) and React frontend (Vercel) for high-performance data rendering.
- Integrated AirLabs API to process live flight data with custom geographic filtering logic for optimized delivery.
- Tech Stack:** Java, Spring Boot, React, WebGL, AirLabs API, REST APIs.

Airbnb Clone | [Live](#) · [GitHub](#)

- Architected a property rental backend using Spring Boot and Spring Security for secure user authentication workflows.
- Deployed on AWS EC2 using DuckDNS for domain mapping and RDS (MySQL) for scalable data persistence.
- Managed full cloud migration and optimized environment security using AWS Security Groups and iptables.
- Tech Stack:** Spring Boot, MySQL, Spring Security, AWS (EC2, RDS in VPC), Bootstrap.

EDUCATION

Echelon Institute of Technology

Bachelor of Technology in Computer Science (6th Semester)

Faridabad, India
2023 – 2027 (Expected)

- Current Status:** Pursuing specialized coursework in Backend Engineering and Cloud Computing.
- CGPA:** 8.0/10.0 (Current).

Delhi Kannada Senior Secondary School

Senior Secondary (Class XII)

New Delhi, India
2022

- Result:** 81%.

Glory Public School

Secondary (Class X)

New Delhi, India
2020

- Result:** 72%.

ACHIEVEMENTS

Public Research Paper | [View Publication](#)

- Journal:** STM Journals.
- Title:** An Analysis of Graph Database in Data Modelling and Analysis for a Recommendation System.
- Explored the efficiency of graph-based structures in enhancing recommendation engine performance.

Smart India Hackathon (Internal)

- Awarded 3rd Prize in the internal round of the Smart India Hackathon for developing innovative technical solutions.
